## W Studio Micro

### Ultra-Slim 3.1 Wireless Sound Bar & Music Streaming System

Definitive Technology is never satisfied resting on its sonic laurels. So, we drilled deeper into our history of producing amazing sound from the most compact form factor to redefine the sound bar with an ultra-slim, low profile without sacrificing studio-quality sound or best-in-class performance. The results are arguably some of our best yet. This new Wireless Collection sound bar blends seamlessly into any home environment with its compact design and it won't block the bottom edge of your TV. Plus, the W Studio Micro includes integrated DTS Play-Fi technology so you can stream all of your favorite online music services, Internet radio, or your personal music library from your phone, tablet, or PC using the Definitive Technology app.

Measuring a sleek 1.75" in height with a beautiful brushed dark aluminum top panel along with the included 8" wireless subwoofer, the W Studio Micro is a true game-changer in the high-performance sound bar landscape. Housed within the sound bar are independent amplifiers that power seven different drivers—four 1" x 3" drivers and three 1" aluminum dome tweeters—for elevated sound quality and impact. What's more, you get optimized listening modes for music and TV/movies, plus center channel and subwoofer volume control—accessible via the sound bar or the included remote control. Both pleasing to the eye as it is to the ear, ultra-slim never sounded this amazing.

### What Obsession Sounds Like

For more than 25 years, Definitive Technology has taken a hard line approach to crafting precision audio and iconic design in all of our products. What drives us to push beyond greatness is knowing that there's a fine line between loving music and being obsessed with it. The Wireless Collection was created for audio aficionados with unrelenting expectations, a discerning ear and an unwavering passion for sound, so you can obsess over every beautiful detail, everywhere in your home.

### Audiophile-Grade Music, Anywhere in Your Home—Wirelessly

Enjoy crystal clear, high-fidelity wireless music streaming using the most advanced audio technologies and driver configurations available. Definitive Technology's renowned full-range acoustic signature brings out the fine textures and detail in the music you can't live without. With the Wireless Collection, it's never been easier to get the room-filling sound you demand from our exclusive line of tri-polar, all-in-one speakers and multi-channel sound bars. Stream all of your favorite online music services like Spotify, Pandora, and Internet radio, or from your personal music library with our DTS Play-Fi technology—all in its purest form, anywhere in your home and from the convenience of your phone, tablet or PC.

### Simple Set-Up and Use

Connect and set up your Wireless Collection products in minutes using the free Definitive Technology iOS, Android and Kindle apps. Download and open the Definitive Technology app, connect your wireless product in a few easy steps, and start streaming wireless music to any room of your home—control is right at your fingertips.
